RETORT SEPARATORS

CIRCULAR RETORT SEPARATORS - CUSTOM

The TRI-CORE separator has a naturally smooth surface that makes retort loading easy without waxing or soaping. Seamless construction allows for simple cleaning. TRI-CORE offers a circular retort separator in both standard and custom sizes.

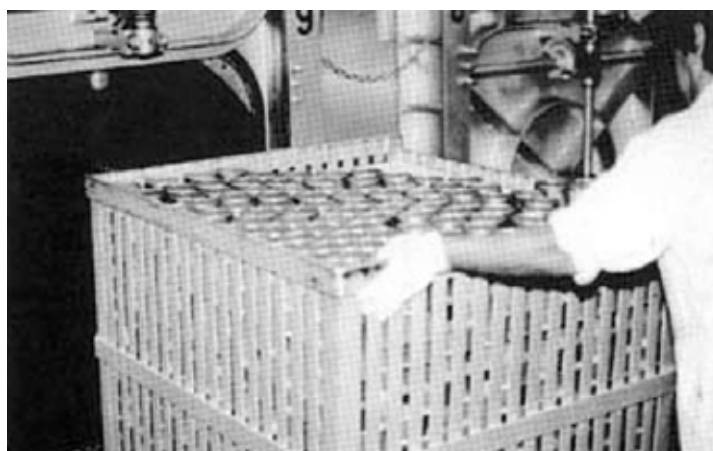

RECTANGULAR RETORT SEPARATORS

SIZE: 36" x 39"

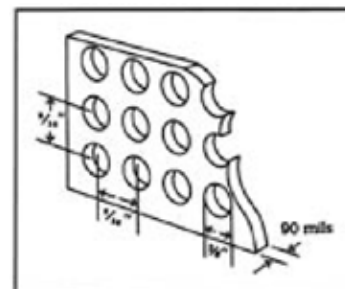

Custom sizes available in 48" maximum by any length.

TRI-CORE PLASTICS offers a rectangular retort separator in standard and custom sizes.

- Heat resistant
- non conductive
- Easy to clean
- Will not scratch cans
- Available in all standard sizes
- Will manufacture square or round custom sizes
- Outstanding flexibility
- Meets FDA specifications.

Screens available in various hole sizes. The seamless all-plastic retort separator is made from tough, durable polypropylene, which is heat and corrosion resistant. Long hours of trouble free service will reduce operating costs in food processing.

Defrosting/ Chilling Containers

A simple and direct solution to the problems of long chilling and defrosting times, the Defrosting Chilling Container allows water and compressed air to be pumped in through the nine spouts molded into the container's base. The whirlpool effect reduces the thawing time by 50% and results in a fresher, superior product. They are supplied with easy-to-use stainless intake valves for the quick connection of any combination of air and water.

PLASTIC FREEZER TRAYS

IDEAL CHOICE FOR PROVIDING A "FOOD GRADE" TRAY FOR FISH PROCESSING!

NEW !!

PLASTIC FREEZER TRAYS

Alaskan Fish Processors have been using these poly sheets for years. Because of the "Good release of Fish" the Americans switched from Aluminium trays to Poly sheets.

(Aluminium tends to adhere the fish to the tray.)

NON STICK

FISH PANS

Custom made to your specs in plastic H.D. Poly Sheets have a -55 degree working temperature.

These poly sheets are "Food Grade" and come in white as well as custom colours of light grey, light blue, etc.

Standard thickness: 1/8" to 3/16".

Custom Size with either 4 sides up or one side up and one side down

Note: Coloured trays will stain less than white.

*We will also custom manufacture to your original tray size.

NON STICK

Please call us today!

TRI-CORE PLASTICS CONTAINERS LTD Vancouver B.C. Ph:1 800 214 3542

NON STICK PLASTIC

Plastic freezer sheets specially formulated to go as low as -55 degrees in your freezer. Because of the good release of fish on plastic, many processors have been switching to this great product.

These plastic sheets are food grade and come in white as well as light blue etc. The standard thickness is 1/8" - 3/16" and is custom sized to fit you racking system.

Aluminum tends to adhere the fish to the trays. A comparison would be like the old style ice cube trays that made it so difficult to get the ice out. With plastic you just have to twist the trays to release the product.
